

Clippernomics Academy of Hairstyling

COVID-19 Relief Scholarship

Financial Support for 32 New Students adds up to \$441,600

Discounted off tuitions for 32 individuals.

Clippernomics Academy of Hairstyling is deeply concerned about the adverse financial impacts on families due to the COVID-19 pandemic. Therefore, as a socially conscious Barber College, we are offering employees and their family members in the airline, hospitality, food service, tourism, restaurant, travel, the education system (public, private, or higher education), entertainment, medical, recreation, law enforcement, or military sectors a special COVID-19 relief scholarship toward first year tuition.

The COVID-19 support provides more than 50% off the first-year tuition, which could equal approximately \$6,000. In other words, a student could study for a full year for only \$6,000. This is for any new first-year, full-time online or on-campus student who is enrolling into Clippernomics Academy of Hairstyling for a barbering degree. This tuition cut is being set up with a link that you may apply for private student loan.

This scholarship will make an excellent opportunity for you to achieve a barbering degree probably the most affordable in the entire State of Iowa. Since our Barbering Degrees are directly related to areas of job growth, this is an opportunity for families to upskill and gain better economic security. We encourage you to apply immediately.

The COVID-19 scholarship is available to new students who enroll at Clippernomics Academy of Hairstyling after the date of this December 13th, 2020 announcement.

Classes scheduled to begin March 24th, 2021.
